Joshua Lederberg, Ph.D.
President
The Rockefeller University
1230 York Avenue
New York, New York 10021

Dear Dr. Lederberg:

I have just spoken with Dr. Jim Withey of Canada. He will send us his chapter on "Pharmacokinetics and Toxicology" within two weeks.

Just this morning, Professor Maltoni called from Italy. He has agreed to summarize all of his vinyl chloride data and the analogue data as well, on 6,000 animals with a complete tissue pathology with between 30 and 35 tissues per animal. This is probably the most comprehensive and complete carcinogenicity experiment that has ever been done.

Professor Maltoni will also present a brief summary of this work in Washington on the 21st and 22nd of March at a meeting sponsored by NIEHS, OSHA, NIEHF, FDA and several other federal agencies. I will have this information after March 15th.

This will be approximately 500 pages.

Sincerely,

MAM:dls

M. A. Mehlman
